

Kuwait is on Fire with TFT - Your Group Can Be Too!

Volume 24 Issue 4

This past October, I had the opportunity to go to Brazil for several presentations and they all responded with much excitement... and I am going back in a few weeks to teach our newly updated Optimal Health course.

Last month I went to Kuwait for the second time to teach Optimal Health, and they too are excited, literally on fire with TFT... and the number of people they are able to help is growing daily. Many have shared their stories with me. I've included some of the cases in this newsletter so you can see the kind of things they are helping with their new skills gained in the Optimal Health and Voice Technology in this issue.

[Click here to find one near you.](#)

But first, I want to share one of the tools they use to support one another. Our lead trainer, Nawaf Al Othman, has done an amazing job of sharing TFT and supporting the new practitioners. One of them writes about their WhatsApp support group. It is something I think many areas/regions could benefit from so I am sharing it with all of you.

Dear Joanne,

Greetings and hope my email finds you well.

It has been a great pleasure and a bliss meeting you in the optimal health course in Kuwait, your amazing efforts are highly appreciated and I'm personally so grateful for you, Nawaf and Safia.

During the course, Safia mentioned to you that we have a TFT (WhatsApp) group, which is a gathering on a phone instant application, as per my conversation with her, I passionately decided to give you further details on that:

- Within this group, there are 243 TFT practitioners from all over the Arab world, mainly from the GCC.

TFT NEWS

- The purpose of this group is to share TFT knowledge, spread further awareness on its effectiveness and constantly emphasize its role towards better health.

- As per the group admin rules, all participation should only be relevant to TFT and should take place prior to 10 pm unless there is urgently required TFT for sudden cases.

- The practitioners within the group share their own applied TFT stories and experiments as well as their clients' stories and end results.

- Some of them seek help when they are facing sudden feelings, and also when they are stuck with a client during a session especially if the SUD is not going down.

- Majority of the participants are highly active and the gathering is similar to a training course with instant feedback on TFT cases to achieve positive results.

- The effectiveness of the group participation and discussion have exceeded the expectations of its initial creation goal.

TFT has opened for us a door towards healing. We now have a tool that is simple and very effective to help us face life challenges and achieve physical and psychological balance to reach the highest level of health and inner peace. For ourselves, our loved ones and our communities.

I hope this brief has been beneficial and has given you a broader picture about this group.

Looking forward to hearing from you.

Have a great day,

Best Regards,

Dr. Amna Al Shaikh Al Zaabi

New Algorithm and Boot Camp Trainers on the Arabian Peninsula

The amazing results that these trainees are experiencing has led to five new trainers, four at the Algorithm level and one at the Algorithm and Boot Camp level. One of them, Darine Jbara, shares with us what one of her client has experienced:

Darine, everyone needs to see this! I came across your account by pure coincidence through your sister. The day before she showed us what you do, my therapist (psychologist) that I had been seeing weekly for a year had told me I should consider anti-depressants because I had reached a point where I was having death thoughts and became very careless.

I contacted you and I was desperate, I know psychology and I know anti-depressants aren't bad, I believe in them but I just didn't want to depend on meds. I was self-medicating with alcohol and other substances.

I came to you and in one session, we sorted 2 major issues I was dealing with, and we sorted them in the first session. I left your house back to myself and happy. The image that I couldn't get over from my childhood and that hurt me disappeared.

The following session with my therapist (second day), he said I should stop therapy because I no longer need it. I left your house and called mom out of feeling like it and not obligation.

I thought I looked fat despite everyone telling me I am thin. I looked in the mirror and felt I am fat, we did TFT and you had a mirror and I looked at it, I realized I am really a size 2 (and for over a year before that i was paying 100\$ per month to a dietician who did nothing)!

I have had the best 5 months of my life after TFT, I am grounded, i love life and I know now that what you really want and need in life, you will get when you really believe in it!

My boyfriend had bugged me for a year about going on a guy's trip alone; I ignored him and wanted to just go with him. A week ago, he told me it's no longer a guy's trip and please come! I can't give TFT justice but even all my friends saw its impact on me. After our second session you told me why don't I look in people's eyes when I talk; you caught me, I had a self-confidence issue! I told you how this disappeared and made me more confident! I can't say more! TFT has been my savior and I am forever grateful.

And I didn't mention that I am no longer afraid from snakes.

Zero Point Energy Field and Passive Healing Support

As many of you know we have long recommended Rescue Remedy. It was one of the first ways Roger found that would correct psychological reversal or negative polarity back in the early '80's. As I mentioned in my news e-zine early last month, we have some new passive healing tools that we have tested with both HRV, voltmeter and now Aura photography. We are using a technology from Germany that neutralizes the field and brings the vibration to that of a healing level. We apply this to various products.

I have experienced results with this myself with my dental implants. In the past my body has rejected dental implants – three times they were placed and then had to be removed. I finally resorted to a bridge. Then last year when I needed to have two teeth extracted I decided to try one more time. I had my dental implant posts placed in one of these field converters and then placed in my mouth. I had no swelling or pain and they healed beautifully. This has given me a whole new, healthier option for my dental reconstruction.

Another recent example was from one our trainers who had been using Rescue Remedy on a large injury/tumor location. I sent them a tube of Rescue which had been transformed in the zero field converter. When they used it, they noticed a significant decrease in the redness and swelling by the next morning.

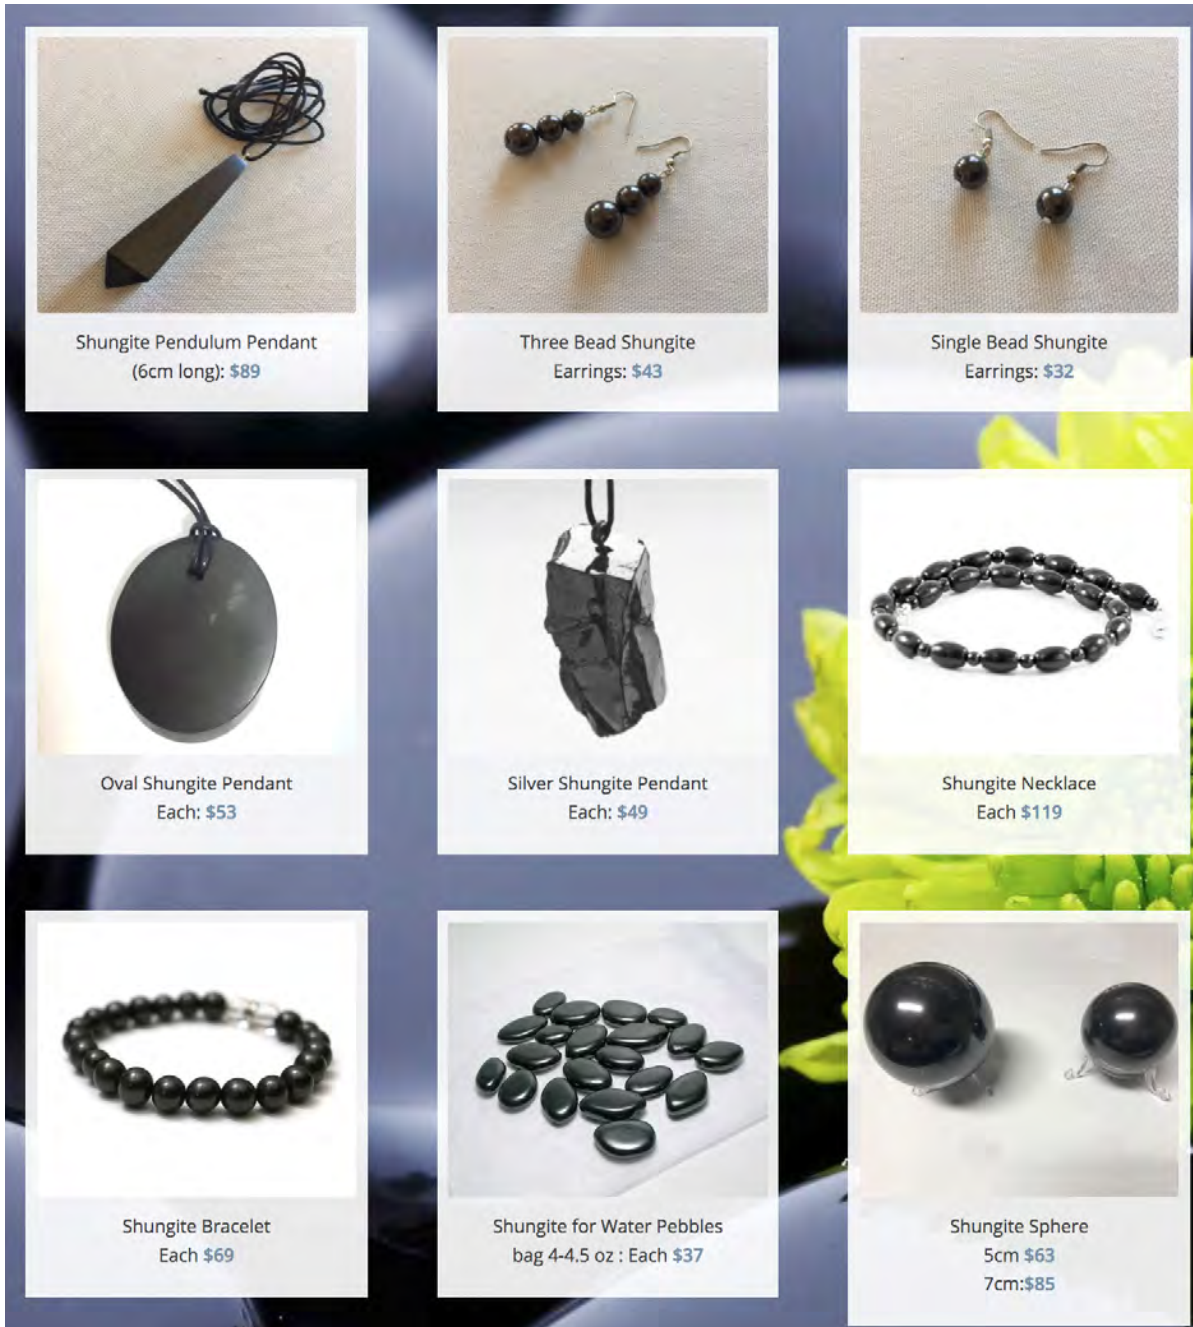

In TFT, we are very aware of the importance of maintaining positive polarity and demonstrate this with a simple voltmeter during our trainings. We have seen these items also change negative polarity to positive polarity in these demonstrations.

We believe that this technology further enhances the healing properties of items like Rescue and the new Shungite products we are using.

TFT NEW PRODUCTS

We have been creating some new tools for supporting healing that we use along with TFT. As they can help us maintain a higher vibration and positive polarity, I believe they allow TFT tapping reach deeper and more consistent levels of healing. [Click here to see what other tools we have available.](#) We are now having these new tools available for attendees to experience and to do further testing at our Optimal Health courses.

From Fear of Clowns to Attracting Abundance

One of our new trainers attended our first Optimal Health in Kuwait last year then returned this year. She has sent me over 10 cases demonstrating how she is applying her new skills. I am sharing a couple of these with you.

The first is an example of how complex what appears as a simple phobia when toxins are involved and also how past trauma can also be relevant. The VT diagnostic process was necessary for her success.

Case No.6 Client's Age: 9 Gender: Child (Boy)

Reason of requesting a session: Coulrophobia (Phobia of clowns).

The session was requested by the mother of the child. His fear of clowns started when he was two years old on a trip to Disneyland where he had his first interaction with a clown character. He was terrified and he started to cry. Second interaction was two years later at the same place, this time he was with his uncle and he started to be aggressive and he had a strong reaction when one of the clowns was trying to play with him.

Although he is nine years old now, he still cries and screams every time he sees clowns in any occasion and as a reaction to that he runs to his mom and he refuses to let her go. This type of attitude causes a great embarrassment to the mother who is a TFT practitioner. She tried the fear algorithm to solve this issue but of no use.

She requested a phone session, I asked her to prepare a sample of clown character and place it in front of her son. The tapping points were complex, with lots of points tapped and I asked him to drink water. SUD was still the same, so we applied the collarbone breathing technique and the SUD was reduced by one point. I diagnosed some new points – he drank water. More points - SUD started to be reduced Step-by-Step which was an indication for Toxin Energies. When I checked with the mother she confirmed that he had Corn flakes (Normal) and Hanene -traditional sweet made of milk, dates and Wheat- (Tested as aToxin energy). After checking with the mom, I discovered that all dairy products are Toxin energies for the boy and he was coughing during the test. 2nd 9 Gamut Sandwich: was applied, he drank more water and his SUD was reduced to 6, then picture was changed on his Ipad and he started screaming and he decided not to continue the session.

I requested the mother to take him to the washroom then to hug him and that was the end of our session.

I checked with the mother if she had any difficulties during her pregnancy with her son, at first, she said that it was nice and easy especially that he is her first child, then she remembered that she faced some complications at the last week of her pregnancy. The umbilical cord was wrapped around the fetal neck, she was so scared and when

she gave birth, the baby was in a bad shape, he was born with blue and purple spots all over his body. The mother was terrified of the idea that she might lose him and she didn't express her feelings at that time.

She cried very strongly as she spoke about this incident for the first time in her life. I asked her to apply the Trauma Relief Tapping Algorithm and I asked her to cut off Toxin Energies for ten days. After ten days of our session the mother placed a clown picture in front of her son and he didn't show any disturbing reaction. He admitted that clowns are normal human in Costume. The mother was happy and she shared her experience with a TFT practitioners group.

Attracting Abundance – A Common Challenge for Many

Case No.5 Client's Age: 36 Gender: Female

Reason of requesting a session: Married, Wealth lady but feels she doesn't have full access to her wealth.

The client owns different types of properties (Real estate, Inheritance, liquid assets) but feels she doesn't have full access or control of it. She lent her brothers money, but they never returned the borrowed money. Lessors of her real estate don't pay the rent. She was feeling irritated about not being able to speak her mind or even expressing her feelings and defending herself and demanding her rights.

She wants to buy a specific vehicle "Maserati", and she believes that she has the ability to buy it in cash, but still she is annoyed by the lack of her cash flow.

I noticed that physically she is so skinny so I tested and started with the root chakra clearing with TFT techniques. Initially I applied the 5PR's. The session then turned to a deep yet friendly conversation about how to deal with others in life and how to set her own rules and personal boundaries.

After two days following our session she texted me saying that she received an official approval for a land purchasing request, that she had submitted, ten years back!!!

She received a call from the competent authority in order to collect her new land's official documents.

At the same time one of her brothers contacted her to return an amount of money he borrowed from her earlier.

She was shocked and thrilled at the same moment of having all these amazing results and how she is manifesting financial abundance in her life. I asked her to apply the trauma relief algorithm. She promised that she will purchase the Maserati in 2018 and she will use it to pick me up from the airport on my next visit to her country.

Scanning the Thought Fields of TFT – Intermediate (Causal Diagnostic) Level

The first video conference on Jan. 17, 2018 exceeded expectations. Nine of us spent a productive hour discussing the developments of new algorithms. We reviewed the criteria for Algorithms before John Steuernol presented his work with a pattern coming up very often when working with chronic conditions. We also discussed using the language of the unconscious in tuning the thought field to be treated.

To see the conversation, go to <https://www.youtube.com/watch?v=klumX2mDd4A>

The group agreed to meet again in 2 months on Mar. 21 at 9AM PST for one hour. We will start with a discussion of Psychological Reversal. All five of the PR's now used will be described with test statements and applications. This video call is open to all who have completed the Causal Diagnostic level of trg.
